

Declaration of Non-use of Banned Substances

It is the policy of Plessey Semiconductors Limited, that all purchased materials shall satisfy current UK and EU legislative requirements and health and safety constraints on restricted, toxic and hazardous materials.

Restriction of Hazardous Substances – RoHS

Plessey Semiconductors Limited confirms that all wafers and packaged products supplied to its customers do not contain the following substances

- Lead
- Mercury
- Cadmium
- Hexavalent chromium
- Polybrominated biphenyls – PBB
- Polybrominated diphenyl ethers – PBDE

As defined in Annex 2 of the Restrictions on Hazardous Substances (RoHS), EU Directive 2011/65/EC and all subsequent amendments.

Plessey Semiconductors Limited also declares that that any unintentional contaminant concentrations of these substances are :-

Below 0.1% for lead, mercury, hexavalent chromium, polybrominated biphenyls and polybrominated diphenyl ethers for each homogenous material.

and

Impurities of cadmium are less than 0.01% for each homogenous material

Registration, Evaluation, Authorisation and Restriction of Chemicals – EU REACH

All wafers and packaged products supplied by Plessey are classified as articles and therefore do not need to be registered under EU REACH.

Plessey confirms that all wafers and packaged products supplied to its customers, do not contain any of the 247 substances included on the candidate list of substances of very high concern (SVHC list) as it stands updated on 21st January 2025. The UK REACH candidate list reflects the EU REACH list as of 1st January 2021. Plessey products do not contain any of the substances listed in Annex XVII of the EU REACH Regulations
